

CLAO,
The Eye & Contact Lens Association

Annual Meeting

Wednesday, January 25, 2017
9:00 a.m. to 1:45 p.m.

Naples Grande Beach Resort
475 Seagate Drive, Naples, Florida

Agenda

CLAO, The Eye & Contact Lens Association Annual Meeting January 25, 2017 9:00 a.m. - 1:45 p.m. - Naples Grande Beach Resort, Naples, FL

9:00 - 9:05 a.m.	Welcome	
9:05 - 9:35 a.m.	The Oliver H. Dabezies Jr. MD Lecture - Cross-Linking is Finally Approved in the US: Now What?	William B. Trattler, MD
9:35 - 9:55 a.m.	Contact Lenses <ul style="list-style-type: none">▶ “Doctor, My Eyes Turn Red and Hurt When I Wear my CL”: Therapeutic Options for Contact Lens Intolerance:▶ Multifocal CL and Multifocal IOLs: Does Success With One Modality Indicate Success With the Other?	Amy Nau, OD Kendall Donaldson, MD
9:55 - 10:35 a.m.	Innovations in Ocular Surface Disease <ul style="list-style-type: none">▶ A Low-Cost, Low Tech Way to Examine a “Dry Eye” Patient and Not Miss a Thing!▶ Simple, Step-Wise Approach to Treating Dry Eye Disease▶ New Dry Eye Insight: Conjunctivochalasis as an Overlooked Cause▶ When All Else Fails: Contact Lenses for Dry Eye Disease▶ Out of the OR and into the Laser Suite: 15 minute Pterygium Excision Using Latest Techniques	Deepinder K. Dhaliwal, MD, L.Ac Whitney Hauser, OD Scheffer C. G. Tseng, MD, PhD Deborah S. Jacobs, MD Michelle K. Rhee MD
10:35 - 11:00 a.m.	Break With Exhibitors	
11:00 - 11:30 a.m.	Myopia Control and Therapeutic Contact Lenses <ul style="list-style-type: none">▶ Contact Lens Management to Promote Epithelial Healing Following Corneal Surgery▶ Antibiotic Prophylaxis and Therapeutic Contact Lenses: Controversies and Considerations▶ The Myopia Story: Facing up to the Challenges	Michael Ward, MMSc, FAAO, FCLSA Jessica Ciralsky, MD Noel A. Brennan, MScOptom, PhD, FAAO
11:30 a.m. - 12:00 p.m.	Updates from Around the World <ul style="list-style-type: none">▶ The Transition of Contact Lens Prescribing in Japan▶ ECLSO: The French Study Group for Contact Lens Related Microbial Keratitis▶ SOBLEC: Profile of the Contact Lens Wearers with Endothelial Changes Resulting from Cornea Oxygen Deficiency	Motohiro Itoi, MD René Mély, MD Fernando C. Abib, MD, PhD
12:00 - 12:30 p.m.	The Harold A. Stein MD Lecture – Intentional Extreme Pseudophakic Monovision to Treat Diplopia	Robert H. Osher, MD
12:30 - 12:45 p.m.	Message From Our Sponsor	Brian L. Schwam, MD Vice President & Chief Medical Officer, Johnson & Johnson Vision Care
12:45 - 1:45 p.m.	Please Join Us In "The Catch of the Pelican" For Lunch	

The Harold A. Stein MD Lecture

Robert H. Osher, MD

Intentional Extreme Pseudophakic Monovision to Treat Diplopia

Robert H. Osher, MD is Professor of Ophthalmology at the College of Medicine at the University of Cincinnati and Medical Director Emeritus of the Cincinnati Eye Institute. Dr. Osher served his residency at the Bascom Palmer Eye Institute and completed three fellowships in Miami and at the Wills Eye Hospital in Philadelphia. He has received countless awards internationally, and has designed many of the contemporary intraocular lenses and instruments used in cataract surgery, in addition to developing new techniques in this subspecialty. He is the Founder and Editor of the Video Journal of Cataract and Refractive Surgery and has published more than 250 videos and peer-reviewed articles. He is the principle organizer for the renowned Cataract Surgery: Telling It Like It Is meeting that is now in its 6th year.

Robert H. Osher, MD

The Oliver H. Dabezies Jr. MD Lecture

William B. Trattler, MD

Cross-linking is Finally Approved in the US: Now What?

William B. Trattler, MD received his Doctorate of Medicine degree from the University of Miami School of Medicine. He is an expert in the treatment of severe dry eye and performs a wide variety of cataract and refractive surgeries. Dr. Trattler treats corneal diseases such as keratoconus and post LASIK Ectasia with Corneal Collagen Crosslinking and other procedures and was involved in the FDA trials to approve Crosslinking in the U.S. Dr. Trattler has been invited to lecture across the U.S. on various topics such as: Optimizing visual results with both cataract and laser vision correction, therapeutic options for patients with dry eye and blepharitis, femtosecond laser cataract surgery, corneal collagen crosslinking for keratoconus and post lasik ectasia, and the latest treatments in ocular allergy and infections. In addition to his private practice, Dr. Trattler is a Volunteer Assistant Professor of Ophthalmology at the University of Miami's Bascom Palmer Eye Institute.

William B. Trattler, MD

History

Oliver H. Dabezies, Jr., MD Lecturers

1991 Oliver H. Dabezies, Jr., MD
1992 R. Linsy Farris, MD
1993 Harold A. Stein, MD
1994 Herbert E. Kaufman, MD
1995 Perry S. Binder, MD
1996 Stephen D. Klyce, PhD
1997 H. Dwight Cavanagh, MD, PhD
1998 James P. McCulley, MD
1999 Donald J. Doughman, MD
2001 William M. Bourne, MD
2002 Peter Donsik, MD
2003 Gary N. Foulks, MD
2004 William T. Driebe, Jr., MD

Oliver H. Dabezies, Jr., MD Lecturers (cont.)

2005 Scheffer Tseng, MD
2006 M. Cristina Kenney, MD, PhD
2007 Elizabeth Cohen, MD
2008 James Chodosh, MD
2009 H. Dwight Cavanagh, MD
2010 Elmer Y. Tu, MD, PhD
2012 Penny A. Asbell, MD, MBA
2014 Donald Tan, MD, FRCS
2015 John Dart, MD
2016 Russell N. Van Gelder, MD

2001 Sven Erik G. Nilsson, MD, PhD
2002 Irwin Siegel, OD, PhD D
2003 Frank Holly, PhD
2004 Stephen Plugfelder, MD
2005 Miguel Refojo, DSc
2006 Perry Rosenthal, MD
2007 Raymond M. Stein, MD
2008 Mark Terry, MD
2009 Florence Malet, MD
2010 Anthony J. Aldave, MD
2012 Stephen D. McLeod, MD
2014 Allan R. Slomovic, MD, FRCS
2015 Jay S. Pepose, MD, PhD
2016 Suzanne MJ. Fleiszig, OD, PhD

Speaker Biographies

Fernando C. Abib, MD, PhD

Profile of the Contact Lens Wearers with Endothelial Changes Resulting from Cornea Oxygen Deficiency

Fernando Cesar Abib, MD, PhD is an Ophthalmologist. He is Head of Ophthalmology Service of Erasto Gaertner Hospital, Brazil, Professor of Human Anatomy at Federal University of Paraná, Brazil, and Head of Corneal Endothelium and Specular Microscopy Lab.

Noel A. Brennan, MScOptom, PhD, FAAO

The Myopia Story: Facing up to the Challenges

Noel A. Brennan, MScOptom, PhD, FAAO is a scientist, inventor, clinical researcher, author and international educator. Dr. Brennan is the Global Platform Lead for Myopia Control and a Clinical Research Fellow at Johnson & Johnson Vision Care, since 2011. Prior to 2011 he co-directed a privately-owned research consulting company and, was an academic faculty member at the University of Melbourne, reaching the level of Reader. He is a Senior Fulbright Alumnus, a Max Shapero Memorial Lecture Awardee of the American Academy of Optometry and a councilor of the International Society for Contact Lens Research. He is known for numerous developments including: the Atago hand held refractometer; his work on 'blur adaptation'; driving the celebrated Liou-Brennan model eye; designing the nose-cone optics of the Medmont corneal topographer; identifying the surprise major contact lens parameter associated with CL discomfort – surface friction; and, most recently, spearheading development of vanguard optical designs for myopia control, and more.

Jessica Ciralsky, MD

Antibiotic Prophylaxis and Therapeutic Contact Lenses: Controversies and Considerations

Jessica Ciralsky, MD is an Assistant Professor of Ophthalmology at Weill Cornell Medicine. Her practice interests include corneal diseases and corneal surgery, advanced cataract surgery, laser vision correction, and comprehensive ophthalmology. Dr. Ciralsky obtained her M.D. from the Johns Hopkins School of Medicine, and she continued her training at the Massachusetts Eye and Ear Infirmary, Harvard Medical School, where she completed her Ophthalmology Residency and Cornea Fellowship. During her fellowship, Dr. Ciralsky was elected Chief Clinical Fellow of the Cornea Service. She was also a recipient of the prestigious Heed Ophthalmic Foundation Fellowship. Dr. Ciralsky has been recognized as a gifted educator. She was awarded Fellow of the Year, an award given by the residents of Massachusetts Eye and Ear Infirmary for dedication and contribution to resident education. She is currently serving on the Board of Directors of the Contact Lens Association of Ophthalmologists, (CLAO).

Deepinder K. Dhaliwal, MD, LAC

A Low-Cost, Low Tech Way to Examine a “Dry Eye” Patient and Not Miss a Thing!

Deepinder K. Dhaliwal, MD, LAC is the current President of the Contact Lens Association of Ophthalmologists (CLAO). She earned her medical degree from Northwestern University in the Honors Program in Medical Education where she was selected as a member of the Alpha Omega Alpha Honor Society, and completed her residency in ophthalmology at the University of Pittsburgh Medical Center. She is currently Professor of Ophthalmology at the University of Pittsburgh School of Medicine, Director of Refractive Surgery and the Cornea Service at UPMC Eye Center, and Founder and Director of the Center for Integrative Eye Care at the University of Pittsburgh. She is a recognized expert in her field and teaches corneal and refractive surgical techniques to ophthalmologists globally.

Kendall E. Donaldson, MD, MS

Multifocal CL and Multifocal IOLs: Does Success With One Modality Indicate Success With the Other?

Kendall E. Donaldson, MD, MS, is associate professor of ophthalmology and cornea specialist at the Bascom Palmer Eye Institute. She completed her residency training and cornea/external disease fellowship at Bascom Palmer in 2004. In addition to caring for her patients, Dr. Donaldson has also enjoyed working with the residents and fellows and became co-director of the cornea fellowship in 2013. Dr. Donaldson's primary research interests are in the area of advancements in cataract surgery, and in particular, laser-assisted cataract surgery, and severe ocular surface disease. She performs various types of corneal transplantation procedures, laser vision correction procedures, ocular surface reconstruction, and cataract surgery.

Whitney Hauser, OD

Simple, Step-wise Approach to Treating Dry Eye Disease

Whitney Hauser, OD is an Optometric Physician who sees patients at the TearWell Advanced Dry Eye Treatment Center. Dr. Hauser graduated from the University of Tennessee at Knoxville with a bachelor's degree in Biology. She obtained her Doctor of Optometry at the Southern College of Optometry (SCO) with the academic distinction magna cum laude and completed her residency in Primary Care through SCO and the VA Medical Center in Memphis. Dr. Hauser was in private practice for 10 years where her concentration was Dry Eye and Ocular Surface Disease management as well as surgical pre and post-operative care.

Motohiro Itoi, MD

Contact Lens Prescribing in Japan

Motohiro Itoi, MD is Medical staff in the Department of Ophthalmology at Kyoto Prefectural University of Medicine in Kyoto, Japan. He completed his medical training and residency at Tokyo Medical University in Tokyo, Japan where he also completed his residency. He received the 2016 Young Researcher's Award from the Japan Contact Lens Society, and the 2015-2016 Hot Topics Award at the 58th & 59th Annual Meeting of the Japan Contact Lens Society.

Deborah S. Jacobs, MD

When All Else Fails: Contact Lenses for Dry Eye Disease

Deborah S. Jacobs, MD, is an ophthalmologist specializing in cornea and ocular surface disease. Dr. Jacobs earned an undergraduate degree in Biology, summa cum laude, from Harvard and Radcliffe Colleges in 1981. She was awarded a Rhodes Scholarship to Oxford University in the U.K., where she earned an MSc in Physiological Sciences in 1983. She attended Harvard Medical School, earning an M.D. in 1987. Dr. Jacobs trained as a Resident in Ophthalmology and then as a Fellow in Cornea and External Diseases at Massachusetts Eye & Ear Infirmary. From 1992-2006, she was Director of the Cornea Service at Beth Israel Deaconess Medical Center in Boston. Since 2006, Dr. Jacobs has served as the Medical Director at Boston Foundation for Sight, in Needham, MA. She is an Associate Professor of Ophthalmology, Part-time, at Harvard Medical School, where she directs the Core Medicine Clerkship in Ophthalmology, and sees patients in consultation at the Massachusetts Eye & Ear Cornea Service. She served as President of CLAO from 2014 -2 016.

Speaker Biographies

René Mély, MD

The French Study Group for Contact Lens Related Microbial Keratitis

René Mély, MD is an ophthalmologist who received his medical degree from the Louis Pasteur University of Strasbourg (France) in 1981. He completed his training in ophthalmology at the University Eye Clinic of Homburg/Saar in Germany, and served as head of the contact lens department from 1990 to 1991. In 1993 Dr. Mély opened a private ophthalmology practice in Saarlouis/Germany, and in 2004 in Valmont/France. From 1994 to 2000 he was a co-editor of the International Medical Contact Lens Journal Contactologia published by Enke-Verlag in Stuttgart (Germany). He served as a Secretary General of the European Contact Lens Society of Ophthalmologists (ECLSO) from 2003 to 2011 and has been President in office since 2012.

Amy Nau, OD

"Doctor, My Eyes Turn Red and Hurt When I Wear my CL": Therapeutic Options for Contact Lens Intolerance

Amy Nau, OD is a research optometrist who divides her time between the practice of optometry and clinical research. She graduated from the New England College of Optometry, and completed a residency in ocular disease with the Boston VA Health Service. She has been on staff at Beth Israel Deaconess Hospital in Boston, and was an Assistant Professor and Director of Optometric Services at the University of Pittsburgh with a secondary appointment at the McGowan Institute of Regenerative Medicine after establishing the Sensory Substitution Laboratory. In 2013, she returned to Boston as a Partner at Korb & Associates, a unique research based academic practice that focuses on dry eye and complex contact lens fitting. She has been published extensively, and lectures nationally and internationally. Dr. Nau remains active in mentoring graduate students and teaching, and holds a faculty position at the New England College of Optometry.

Michelle K. Rhee, MD

Out of the OR and into the Laser Suite: 15 minute Pterygium Excision Using the Latest Techniques

Michelle K. Rhee, MD is the current Scientific Programs Chair and President Elect of the Contact Lens Association of Ophthalmologists (CLAO). She is a clinical and surgical instructor for the Mount Sinai Residency Program in Ophthalmology, and has surgical expertise in refractive procedures such as LASIK and PRK, corneal, and cataract surgery. Dr. Rhee is the co-director of Refractive Surgery Services at Mount Sinai and serves as associate director of Ophthalmology for Mount Sinai at the Elmhurst Hospital Center. She completed subspecialty training in diseases of the cornea and refractive surgery at the New York Eye and Ear Infirmary following a residency in ophthalmology at the Eye and Ear Institute of Pittsburgh. Dr. Rhee earned her M.D. from Mount Sinai School of Medicine.

Brian L. Schwam, MD

Message from our Sponsor

Brian L. Schwam, MD serves as Vice President and Chief Medical Officer for Johnson and Johnson Vision Care, Inc. Dr. Schwam assumed this role in November of 2012 and has responsibility for the Global Clinical and Medical Affairs (including Medical Safety) organizations at Vision Care. In 2007, Dr. Schwam joined Vision Care as Director, Medical Affairs and Ocular Sciences where he focused on both combination product development in R&D and Medical Affairs within Vistakon Pharmaceuticals. Most recently, Brian led the Clinical Affairs organization including Clinical Operations, the Vistakon Research Clinic, and Data Management and Biostatistics. Prior to joining Vision Care, Dr. Schwam practiced ophthalmology in the specialty of cornea/external disease, cataract, and refractive surgery both in private practice and at the Mayo Clinic, where he was Assistant Professor of Ophthalmology. While in practice, Dr. Schwam was a frequent lecturer on corneal disease and cataract/refractive surgery to eye-care providers and other medical professionals. Brian is a member of the Board of Directors and Executive Committee of the Vision Is Priceless Council (VIP), and is an active participant in the Volunteer HealthCare Provider Program at several locations in Northeast Florida.

Scheffer C.G.Tseng, MD, PhD

New Dry Eye Insight: Conjunctivochalasis as an Overlooked Cause

Scheffer C.G.Tseng, MD, PhD serves as Medical Director of Ocular Surface Center, providing the state-of-art Clinical Services to patients suffering from a variety of ocular surface and tear disorders. Dr. Tseng serves as Research Director of Ocular Surface Foundation, educating and training research fellows who are specializing in ocular surface biology, health, and diseases. Dr. Tseng serves as Director of Research & Development of TissueTech, Inc., Medical Director and Consultant of Bio-Tissue, Inc., and Director of Research & Development of Bio-Lipid, Inc., supervising a variety of research programs directed to study the pathogenesis of ocular surface and tear diseases, and develop new tools and products for improving the diagnosis and treatment of these diseases.

Michael A. Ward, MMSc, FAAO, FCLSA

Contact Lens Management to Promote Epithelial Healing Following Corneal Surgery

Michael A. Ward, MMSc, FAAO, FCLSA recently retired from the Emory Eye Center, serving as an instructor in Ophthalmology and a Director of the Contact Lens Service, section of Comprehensive Ophthalmology. His particular interests are in contact lens management of keratoconus and other corneal ectasia, including visual rehabilitation following corneal transplantation and refractive surgery (RK, PRK, LASIK). Other long-standing interests include ocular microbiology, contact lens care product antimicrobial efficacies, and prevention of product-associated ocular inflammations.

Become a Member of CLAO

Membership Benefits Include:

- ▶ Subscription to Eye and Contact Lens: Science and Clinical Practice
- ▶ Subscription to CLAO E-News
- ▶ Professional listing on *www.ContactLensDocs.com* (Regular, Associate and Affiliate members only)
- ▶ Registration discount at CLAO Meetings
- ▶ Professional development and leadership opportunities
- ▶ Opportunities to network with fellow colleagues in the field of contact lenses and vision correction

***Special Thanks to Dr. Robert Osher, MD for allowing CLAO to hold this meeting in advance of The Cataract Surgery: Telling It Like It Is meeting and generously supporting this meeting space.

Because I know Sam wants a full month's use from his lenses,
I prescribe NEW ACUVUE® VITA™.

EYE-INSPIRED™ Design | Reliable, superior comfort—all month long

NEW HydraMax™ Technology

is a non-coated silicone hydrogel formulation balanced to help **MAXIMIZE** and **MAINTAIN** hydration.

- **HYDRATION is MAXIMIZED** with the maximum amount of hydrating agent integrated throughout this lens.
- **HYDRATION is MAINTAINED** with optimal density and distribution of beneficial lipids throughout this lens.

for more information visit acuvueprofessional.com

Patient ratings for ACUVUE® VITA™ were superior at weeks 1, 2, 3, and 4 for "Overall Comfort."*

NEW ACUVUE®
vita™
 BRAND CONTACT LENSES

*Compared to Air Optix® Aqua, Biofinity®, and Ultra™.

ACUVUE® VITA™ Brand Contact Lenses are indicated for vision correction as a daily wear lens with one-month recommended replacement. As with any contact lens, eye problems, including corneal ulcers, can develop. Some wearers may experience mild irritation, itching or discomfort. Lenses should not be prescribed if patients have any eye infection, or experience eye discomfort, excessive tearing, vision changes, redness or other eye problems. Consult the package insert for complete information. Complete information is also available by visiting acuvueprofessional.com, or by calling: In Canada: Johnson & Johnson Vision Care division of Johnson & Johnson Inc. at 1-800-843-2020; In the US: Johnson & Johnson Vision Care, Inc. at 1-800-843-2020.

SCIENCE AND CLINICAL PRACTICE

JOURNAL OF THE CONTACT LENS ASSOCIATION OF OPHTHALMOLOGISTS INC. (USA)

We invite you to submit an original article to *ECL*.

ECL is a peer-reviewed scientific journal that publishes original articles on anterior segment research and clinical practice of interest to ophthalmologists and optometrists.

Focusing especially on contact lenses, *ECL* also covers

- dry eye disease,
- Meibomian gland disorder,
- infections,
- toxicity of drops and contact lens care solutions,
- topography,
- cornea surgery and post-operative care,
- optics,
- refractive surgery and
- corneal stability (eg, UV cross-linking).

Type your name and title here.
